DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase "at around center portions thereof", as recited in claim 1, line 4, is not clearly understood.

Further, claim 1 initially recites plural "side plates" in line 1 but later in the same claim refers to only a single "side plate" (lines 9, 13, and 16). Thus, it is unclear as to which of the plural "side plates" the single "side plate" in lines 9, 13, and 16 is referring. Similarly, claim 1 initially recites a pair of "open/close arms" in lines 3 and 4 but later in that same claim refers to only a single "open/close arm" (lines 18 and 19).

Also, there is no clear antecedent basis for "the placed state" or "the dropped state" as recited in the penultimate line of claim 1.

Drawings

3. Figures 16-21B should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled

"Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

4. The disclosure is objected to because of the following informalities: In line 2 of paragraph [0045], the word "is" should be changed to --are--.

Appropriate correction is required.

Allowable Subject Matter

5. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

6. Claim 2 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Priority

7. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Garlinghouse and Weaver both show a bottom opening type container having a pair of open/close arms with intermeshing gear portions.
